IN THE AIR.

The Germa of La Grippe Are Conveyed Through the Atmosphere.

No one can escape the La cirippe germ because when an epidemic of the disease is prevailing the air is laden with it. The reason that evers one does not have the disease at the same time is because the persons who are enjoying perfect hearth are able to successfully resist and throw of the infection, while those, who for my reason are not in the best of health, fall ready victims.

The first symptoms are those of acute catarrh resembling a hard cold and if prompt treatment is applied at this time, it can easily be broken up; one of the best remedies at this stage is Stuart's Catarra Tablets, sold by druggists everywhere, and if taken freely, any one tablet every hour or two for two or three days, the danger of pneumonia and serious complications will be averted.

of pneumonia and serious complications will be averted.

The Bev. L. E. Palmer, Baptist clergsman of Ceresco, Mich., makes a statement of interest to all catarrh and grip somerers. He says: "Stuart's Catarrh Tablets bays certainly been a blessing to me. I have used them freely this fall and wintered them freely the freely and catarrhal troubles, from which I have suffered for years. I feel that I can freely and conscioutously recomposed.

Tor The Post.

Wharton, Texas, March 14.—There was recently placed in the reporter's hands a relic, recalling memories rich and dear of the mellowed past, a souvenir of Reuben Milton Potter, poet-patriot of the Texas Republic.

The keepsake is an old-fashloned autograph album, once neatly bound in Moroeco, of about fifty leaves, 719 inches in size, of heavy linen paper—a collection of Texas patriotic songs and anthems, interspersed with miscellaneous sketches. The grester number of these bear the date of November and December, 1842, from Velasto, Texas. Among them is the author's trans.
